Main Page with Side menu

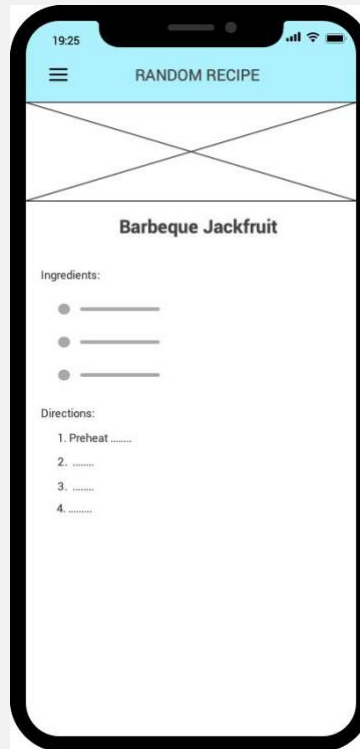

Random Recipe

The image shows a mobile app prototype for a 'RANDOM RECIPE' feature. The screen has a light blue header with a hamburger menu icon on the left and the title 'RANDOM RECIPE' in the center. Below the header, there is a section titled 'Filter Recipes' with a funnel icon. Under this section, there are three filter options: 'Category' with a dropdown menu showing 'Lunch', 'Diet' with a dropdown menu showing 'Vegan', and 'Ingredient' with a text input field. A blue 'Search' button is positioned below the input fields. The status bar at the top shows the time '19:25' and signal/battery icons.
